

DOES GOD WEAR BLUE BOXERS?

2023-2024

Using the camera as a conduit to witness the dynamic between a father and his children, a coming in and going out, a way of being, Does God wear Blue Boxers represents the tension between truth and love in a relationship of loving dependence and trust.

Made in a time when a beloved friend of the artist was unexpectedly diagnosed with stage 4 stomach cancer, the work represents the artists personal experience to reconcile with faith, seeking to understand God as good when something so 'bad' is taking place.
